

## Corporate Connect

Corporate Connect enables corporates to directly handle bulk payments and other transactions, eliminating the need to physically visit the branch.

Convenience redefined for corporates

Real-time payments, transfers & purchases to other institutions (or third-parties)

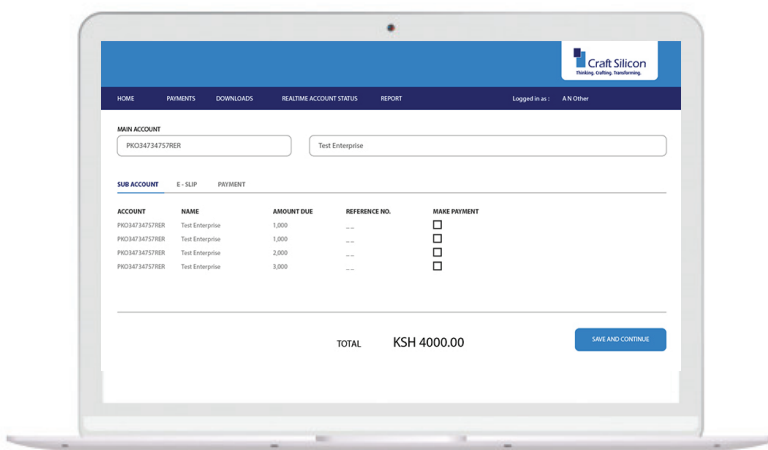

Direct interaction between corporates without routing through bank platforms

Speedy transactions with a reduced scope of errors & reports

## KEY FEATURES

### Extensive Transaction Coverage

Access to pre-defined accounts and sub-accounts for the end-customer including account selection, e-slip generation and multi-payment facility.

### Highly Interactive Mechanism

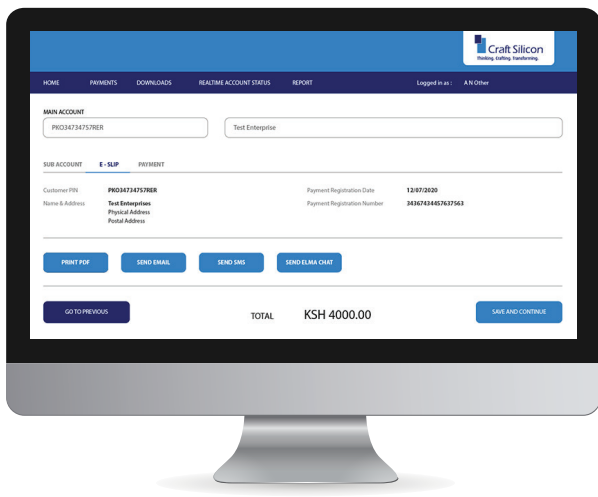

Email notifications sent directly to the client, including alerts regarding details for payments with receipt numbers, KPLC.

### Bulk Transaction Handling Capability

Corporates can perform bulk uploads and push billing.

### Ensures Accuracy

Maker-Checker functionality is available for all transaction.

Corporate Connect that facilitates real-time verification of online transactions through direct interface reduces time delay and saves costs.

## KEY BENEFITS

Enhance your corporate connections and your business
