

SME Banking Toolkit

With Small and Medium Enterprise (SME) banking toolkit, SMEs can focus on running the business while the software handles the financial & business operations, accessible through a convenient handheld device.

Leverage the power of SME banking

Full-fledged transaction support

Custom made for SME needs

Expert advisory for SMEs through direct connect features

KEY FEATURES

The solution delivers a comprehensive ecosystem to serve the emerging needs of SMEs, including:

Automation of Routine Activities

- **Accounting & Invoicing Module** - SME can conveniently create, track, manage and reconcile VAT invoices, pro forma invoices, advance invoices, amongst other financial documents
- **Inventory Management** - Built-in tool to manage and store data of all the goods and materials that the SME holds in stock
- **Credit Facilities** - The SME can request for loans to the bank in real-time, & the bank is in a position to make a guided decision from the data collected specific to the SME on the channel
- **Payroll Services** - This service manages the processing of employee salaries and the storage of supporting documents for the same
- **Purchase Module** - Allowing the merchant to record purchases from the shop and the records stored in the backend database under purchases for that merchant
- **Document Management** - All supplier invoices can be photographed and stored in the system within the purchase record. The image is linked by the system to that record making it easy to pull up later for reference when required
- **Savings Module** - The app comes with a savings wallet, where a merchant can deposit funds from multiple wallets into the wallet as part of a savings scheme
- **SME to SME Market Place** - This is a value-add module on the platform bringing together merchants into a single marketplace where they can interact and buy/sell merchandise from one another
- **Utility Payments** - The platform is integrated to our third-party ecosystem, allowing the merchant to query and make payments for bills, for instance; water & power

Dashboards

SME owners can view all daily operations/transactions and control business functions from a single dashboard that avails by the minute and daily reports
